

A riders worst weekend (for whatever reason) has been dropped. In order to get the crosstab report to work as planned I have changed the riders lowest points to a zero where necessary. If a rider all ready had a "zero" weekend no editing was done. In the event of ties I have had to either add or subtract a point from a rider to get the crosstab to sort properly

Any questions or corrections please call 352-795-4031 or email to
